Improve  
**Procure To Pay**  
Cycle With **Focused Analytics**

## Do You See Your Business Getting Sluggish With Incorrect Invoicing, ...

extensive paperwork, lack of compliance, outdated procure-to-pay processes, less control on spending, long purchase cycles, no clue on suppliers performance, delayed payments, difficulty in keeping up with organizational changes, low usability of the existing system and stagnant cash flow?

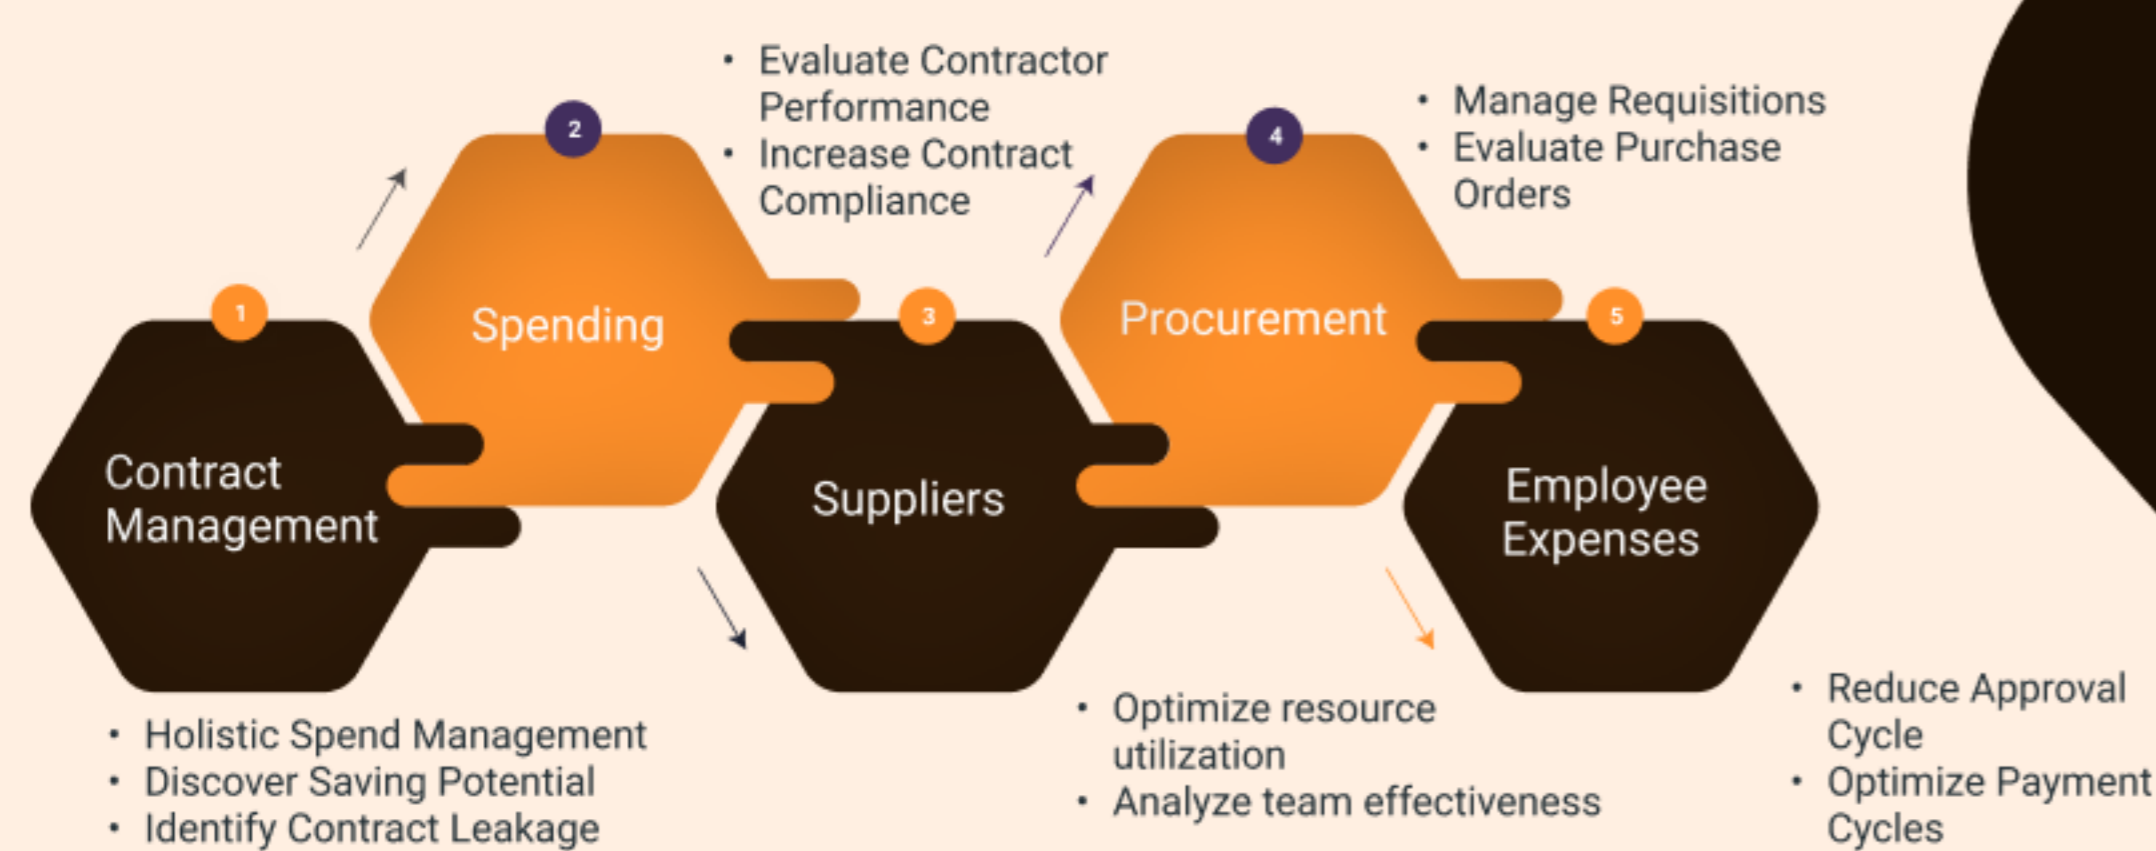

As per Paystream's 2018 Procurement research, **80% of companies** use manual or semi-digital solutions for procure-to-pay cycles, with most businesses having a procurement feature built into their accounting/ERP software or are using antiquated procure-to-pay software, or worse, no solution at all, thus influencing a negative impact on organization's bottom line.
